RE: Proposed FY2008 Tiahrt Amendment

Dear Congressman Tiahrt:

Our Association represents more than 22,000 law enforcement officers throughout the southeastern United States. We have a history of supporting the rights of law abiding citizens under the Second Amendment, while at the same time being mindful of the safety of law enforcement officers and the integrity of their investigations.

Our Association believes that the proposed amendment regarding data in the Firearms Trace Center addresses our concerns. As such, we lend our support to your proposed amendment.

Thank you.

Sincerely,

Jeff Fluck
Director of Governmental Affairs
